

**FISCAL NOTE**  
**SB 2939 - HB 2847**

February 18, 2004

**SUMMARY OF BILL:** Creates a county mayor special purpose license plate. Specifies that such plate can be issued for a vehicle owned by the county government, which is operated exclusively by the county mayor. Provides for payment of the regular registration fee by the county and payment of a fee equal to the cost to design and manufacture the plate to be paid by the county mayor. Specifies that issuance of such plate shall be revenue neutral.

**ESTIMATED FISCAL IMPACT:**

**Increase State Expenditures - \$2,670 One-Time  
\$40 Recurring**

**Increase State Revenues - \$2,670 One-Time  
\$40 Recurring**

Estimate assumes:

- fee for initial issuance of plates will depend on the number of counties providing vehicles for county mayors which would qualify for the plate. The fee would be set to cover the cost of the plates and computer system changes.
- approximately 40 county mayors would choose to get this plate for the car the county provides to them based on fewer than half of all counties providing a car.
- production and distribution costs of \$4.26 for each plate and the one-time computer system change cost of \$2,500 in the first year.
- in the second and subsequent years in accordance with the provisions of the bill, the fee would be approximately \$1.00 each to cover the cost of the decals and mailing notices for such plates.
